Dear Ms. Kump-Mitchell:

The following is a summary report of the activities completed during the period January 1, 2009 through March 31, 2009 at the above referenced site. This report is being submitted as required by the Corrective Action Abatement Order on Consent, Order No. 99-HW-002 (AOC) paragraphs 91 through 94.

Description of work completed during the quarter:

MDNR modified Modine's draft Environmental Covenant submittal of September 10, 2008 and provided Modine with a draft review version on December 2, 2008. The final version of the Environmental Covenant is still pending MDNR legal and management review.

An April 3, 2009 teleconference (Q2) was scheduled with the MDNR and the USEPA to discuss both agencies' positions with respect to TCE toxicity values as they pertain to the vapor intrusion pathway analysis.

Summary of findings, data, etc.:

There were no new findings or data produced during the quarter being reported.

Summary of problems or potential problems and any corrective measures implemented:

No problems were encountered during the quarter being reported.

Projected work for the next reporting period:

Modine is awaiting MDNR's issuance of the final Environmental Covenant. Modine would appreciate MDNR's completion of this review so that the Environmental Covenant can be recorded. Modine will record the Environmental Covenant this quarter if MDNR completes its review by June 23, 2009.
